I. Spontaneous Speech

Record patient's speech on paper and tape. Substitute similar questions if necessary or appropriate. Score fluency and information content according to criteria on page 3.

1. How Are You Today?

2. Have You Been Here Before?

3. What Is Your Name?

4. What Is Your Address?

5. What Is Your Occupation?

6. Tell Me A Little About Why You Are Here? or What Seems To Be The Trouble?

7. Description Of Picture.

Present test picture (Card 1) and say: "Tell me what you see. Try to talk in sentences." Encourage the patient to pay attention to all aspects of the picture. Move the picture towards the patient's intact visual field. Ask for more complete response if only a few words are produced.

Maximum Score 20
Patient's Score _____

SCORING OF SPONTANEOUS SPEECH

A. Information Content

- (0) No Information.
- (1) Incomplete responses only, e.g., first name or last name only.
- (2) Correct response to any 1 item.
- (3) Correct responses to any 2 items.
- (4) Correct responses to any 3 items.
- (5) Correct responses to any 3 of the first 6 items plus some response to the picture.
- (6) Correct responses to any 4 of the first 6 items plus some response to the picture.
- (7) Correct responses to 4 of the first 6 items on page 2 and a mention of at least 6 of the items in the picture.
- (8) Correct responses to 5 of the first 6 items, and an incomplete description of the picture. Recognizable phonemic paraphasias are to be counted as correct.
- (9) Correct responses to all 6 items on page 2. An almost complete description of the picture: at least 10 people, objects, or actions should be named. Circumlocution may be present.
- (10) Correct responses to all 6 items on page 2 and to the picture. Sentences of normal length and complexity, referring to most of the items and activities. A reasonably complete description of the picture.

B. Fluency, Grammatical Competence, and Paraphasias

- (0) No words or short, meaningless utterances.
- (1) Recurrent stereotypic utterances with varied intonation, conveying some meaning.
- (2) Single words, often paraphasias, effortful and hesitant.
- (3) Fluent recurrent utterances or mumbling, very low volume jargon.
- (4) Halting, telegraphic speech. Mostly single words, often paraphasic but with occasional verbs or prepositional phrases. Automatic sentences only, e.g., "Oh I don't know."
- (5) Often telegraphic but more fluent speech with some grammatical organization. Paraphasias may be prominent. Few propositional sentences.
- (6) More complete propositional sentences. Normal syntactic pattern may be present. Paraphasias may be present.
- (7) Phonemic jargon with semblance to English syntax and rhythm with varied phonemes and neologisms. May be voluble; must be fluent.
- (8) Circumlocutory, fluent speech. Marked word finding difficulty. Verbal paraphasias. May have semantic jargon. The sentences are often complete but may be irrelevant.
- (9) Mostly complete, relevant sentences; occasional hesitation and/or paraphasias. Some word finding difficulty. May have some articulatory errors.
- (10) Sentences of normal length and complexity, without definite slowing, halting, or articulatory difficulty. No paraphasias.

II. Auditory Verbal Comprehension

A. Yes/No Questions

Explain to the patient that you are going to ask some questions and that the answers should be either "yes" or "no." If it is difficult to establish a consistent verbal or gestural yes/no response, then eye closure for "yes" should be established. The instructions should be repeated, if necessary, during the test. Reinforce the patient when he or she gets into the set of answering as requested, but avoid nodding or commenting on specific items! If the patient self-corrects, the last answer is scored. If a patient gives an ambiguous or confabulatory response, repeat the instructions and the question and score accordingly. If the response is still ambiguous, score 0. Score 3 points for each correct answer. Record responses in the appropriate column: verbal, gestural, or eye blink.

	Verbal	Gestural	Eye Blink
1. Is Your Name Smith? ("no" should be correct)	☐	☐	☐
2. Is Your Name Brown? ("no" should be correct)	☐	☐	☐
3. Is Your Name _____ (real name) ?	☐	☐	☐
4. Do You Live In Toronto? (no should be correct)	☐	☐	☐
5. Do You Live In _____ (real residence) ?	☐	☐	☐
6. Do You Live In Windsor? ("no" should be correct)	☐	☐	☐
7. Are You A Man/Woman? ("yes" should be correct)	☐	☐	☐
8. Are You A Doctor? ("no" should be correct)	☐	☐	☐
9. Am I A Man/Woman? ("yes" should be correct)	☐	☐	☐
10. Are The Lights On In This Room? ("yes" should be correct)	☐	☐	☐
11. Is The Door Closed? ("yes" should be correct)	☐	☐	☐
12. Is This A Hotel?	☐	☐	☐
13. Is This _____ (real test location) ?	☐	☐	☐
14. Are You Wearing Red Pyjamas? ("no" should be correct)	☐	☐	☐
15. Will Paper Burn In Fire?	☐	☐	☐
16. Does March Come Before June?	☐	☐	☐
17. Do You Eat A Banana Before You Peel It?	☐	☐	☐
18. Does It Snow In July?	☐	☐	☐
19. Is A Horse Larger Than A Dog?	☐	☐	☐
20. Do You Cut The Grass With An Ax?	☐	☐	☐

Maximum Score 60
Patient's Score _____

B. Auditory Word Recognition

Place the real objects in a random cluster making sure that they are within the patient's intact field if hemianopsia is present. Present cards of the pictured objects, forms, letters, numbers, and colors. Ask the patient to point to the furniture, his or her body parts, and fingers, in the order listed. Ask the patient to point to each item, by saying, "Point to the _____," or, "Show me the _____." One repetition of each command is allowed. If the patient points to more than one item, score 0, unless it is clear that the patient recognizes his or her error and corrects it. For the seven items requiring left-right discrimination, the patient must get both the side and body part correct to receive credit. If the room does not have certain furniture, substitute comparable items.

Real Objects	Drawn Objects	Forms	Letters	Numbers
Cup	Matches	Square	J	5
Matches	Cup	Triangle	F	61
Pencil	Comb	Circle	B	500
Flower	Screwdriver	Arrow	K	1867
Comb	Pencil	Cross	M	32
Screwdriver	Flower	Cylinder	D	5000

Colors	Furniture	Body Parts	Fingers	Right-Left
Blue	Window	Ear	Thumb	Right Shoulder
Brown	Chair	Nose	Ring Finger	Left Knee
Red	Desk	Eye	Index Finger	Left Ankle
Green	Light	Chest	Little Finger	Right Wrist
Yellow	Door	Neck	Middle Finger	Left Elbow
Black	Ceiling	Chin	Right Ear	Right Cheek

Maximum Score 60
Patient's Score _____

C. Sequential Commands

Score for partial execution of the commands according to the numbers above each segment that is correctly executed. If the patient requests repetition or looks confused, repeat the command as a full sentence. On the table before the patient line up the pen, comb, and book in this respective order and label each, verbally: "See the pen, the comb, and the book? I will ask you to point to them and do things with them, just as I say. Are you ready?" If the patient does not seem to understand the task, point with the comb to the pen to demonstrate, and start again.

Command	Response	Tactile Cue	Phonemic Cue	Score
				Scores
Raise your hand.				2
Shut your eyes.				2
Point to the chair.				2
Point to the window, then to the door.				4
Point to the pen and the book.				4
Point with the pen to the book.				8
Point to the pen with the book.				8
Point to the comb with the pen.				8
With the book point to the comb.				8
Put the pen on top of the book then give it to me.				14
Put the comb on the other side of the pen and turn over the book.				20
Comb				
Pen				
Spoon				
Scotch tape				
Fork				
Matches				

Maximum Score 80
Patient's Score _____

III. Repetition

Ask the patient to repeat the words listed below; then record the responses. You may repeat items once, if the patient asks or does not seem to hear. If incompletely repeated, score 2 points for each recognizable word. Minor dysarthric errors or colloquial pronunciation are scored as correct. Take 1 point off for errors in order of word sequence or for each literal paraphasia (phonemic errors).

	Maximum Score
1. Bed	2
2. Nose	2
3. Pipe	2
4. Window	2
5. Banana	2
6. Snowball	4
7. Forty-five	4
8. Ninety-five percent	6
9. Sixty-two and a half	10
10. The telephone is ringing	8
11. He is not coming back	10
12. The pastry cook was elated	10
13. First British Field Artillery	8
14. No ifs, ands or buts	10
15. Pack my box with five dozen jugs of liquid veneer	20

Maximum Score 100
Patient's Score _____

IV. Naming

A. Object Naming

Present objects in the order listed below. If no or incorrect responses to visual stimulus, let the patient touch the stimulus. If still no or incorrect responses, present a phonemic or, if a composite word, a semantic cue (the first half of the word). Allow a maximum of 20 seconds for each item. Score 3 points if named correctly or with minor articulatory error, 2 points for a recognizable phonemic paraphasia, and 1 point if a phonemic or tactile cue is required.

Stimulus	Response	Tactile Cue	Phonemic Cue	Score
Gun				
Ball				
Knife				
Cup				
Safety pin				
Hammer				
Toothbrush				
Eraser				
Padlock				
Pencil				
Screwdriver				
Key				
Paperclip				
Pipe				
Comb				
Elastic				
Spoon				
Scotch tape				
Fork				
Matches				

Maximum Score 60
 Patient's Score _____

B. Word Fluency

Ask the patient to name as many animals as he or she can in 1 minute. The patient may be helped if hesitant: "Think of a domestic animal, like the horse, or a wild animal, like the tiger." The patient may be prompted at 30 seconds. Score 1 point for each animal named (except for those in the example), even if distorted by literal paraphasia.

Maximum Score 20
Patient's Score _____

C. Sentence Completion

Ask patient to complete what you say. Provide an example, such as "ice is (cold)." Score 2 points for correct response and 1 point for phonemic paraphasias. Accept reasonable alternatives, e.g., sugar is . . . (fattening) but not grass is . . . (brown).

1. The grass is _____ (green).
2. Sugar is _____ (sweet or white).
3. Roses are red, violets are _____ (blue).
4. They fought like cats and _____ (dogs).
5. Christmas is in the month of _____ (December).

Maximum Score 10
Patient's Score _____

D. Responsive Speech

Score 2 points for acceptable responses, 1 point for phonemic paraphasias.

1. What do you write with? (pen, pencil)
2. What color is snow? (white)
3. How many days are in a week? (seven)
4. Where do nurses work? (hospital)
5. Where can you get stamps? (post office, variety store)

Maximum Score 10
Patient's Score _____

V. Reading

A. Reading Comprehension of Sentences

Present test sentences, one per card. Instruct the patient to: "Read these sentences and point to the missing word. Choose the best from those." The oral instructions should be accompanied by gesture and by pointing to the words missing and the choice of answers. The instructions may be repeated if the patient does not seem to understand. Ask the patient to do the example. If the patient does not do it correctly, point to the correct answer and say: "See, this is the missing word, e.g., The tree has . . . wheels, leaves, grass, or fire."

	Score
1. The rain is blue wet met sea	2
2. A soldier carries a gun shoot fun groceries	2
3. Mr. Smith repairs cars and trucks. He is a tailor machine mechanic bus	4
4. Teachers return to school every fall. They teach leaves children spring books	4
5. Shovels and saws are common tools. They have parts made of farmer forest metal cutting	6
6. Farmers often grow wheat, corn, and other grain. They can also produce coal tractors earth vegetables	6
7. Energy used to be relatively plentiful. Due to oil shortage, many nations are turning to alternate sources such as boiling water the banks the sun economy	8
8. The Titanic was an oceanliner which was thought to be unsinkable but it hit an iceberg and sank in 1912, killing over a thousand people. It would not have sunk if it had not lost power been badly damaged carried passengers been going west	8

Maximum Score 40
Patient's Score _____

B. Reading Commands

Present each card and say, "I want you to read this aloud and then do what it says." Instructions may be repeated if the patient only does one or the other part of the task. Give a partial score if only part of the command is read or contains paraphasias or if only part of the command is performed.

	Reading Aloud	Performing
1. Raise your hand.	1	1
2. Wave goodbye.	1	1
3. Close your eyes.	1	1
4. Draw a cross with your foot.	2	2
5. Point to the chair, and then to the door.	2	2
6. Pick up the pencil, knock three times and put it back.	3	3

Maximum Score 20
Patient's Score _____

If the combined score of A and B is 50 or more, discontinue reading tests and give full credit of 100 minus twice the difference from 60. $\text{Score} = 100 - 2(60 - \text{Patient's Score})$. Continue with testing if combined score (A + B) is less than 50.

Prorated Score _____

C. Written Word Stimulus — Object Choice Matching

Place the objects in a random order before the patient. Ask the patient to point to the object that corresponds to the word presented on cards 22–27. Score 1 point for each correct response.

cup
comb
pencil
flower
matches
screwdriver

Maximum Score 6
Patient's Score _____

D. Written Word Stimulus — Picture Choice Matching

Card 2 with pictures on it is placed before the patient. Instruct the patient to point to the picture that matches the word that is presented. The words are presented individually on cards 22–27. Score 1 point for each correct response.

flower
matches
cup
screwdriver
comb
pencil

Maximum Score 6
Patient's Score _____

**E. Picture Stimulus —
Written Word
Choice Matching**

Card 34, which has the words listed on it, is placed before the patient. The patient is then requested to point to the word that is the same as the picture. The pictures are presented individually on cards 28–33. Score 1 point for each correct response.

cup
pencil
screwdriver
matches
flower
comb

Maximum Score 6
Patient's Score _____

**F. Spoken Words —
Written Word
Choice Matching**

The patient is presented with cards 35–38 and asked to select the orally presented target word from a choice of 5, e.g., "Show me the word flower." Score 1 point for each correct response.

tower flower tree power garden
cable fable table chair cloth
money nanny wallet purse nurse
willow window glass door winter

Maximum Score 4
Patient's Score _____

G. Letter Discrimination

Use the score obtained on the letter identification section of the auditory word recognition subtest. If that score is 3 points or less, use a letter matching task by presenting single letters (cutouts) J, F, B, K, M, D and have the patient point to the choice of letters on card 4.

Maximum Score 6
Patient's Score _____

**H. Spelled Word
Recognition**

Ask the patient to name the word that is spelled orally by the examiner. If the patient does not understand the task, give an example not listed on the test. Score 1 point for each correct answer.

n-o
d-o-g
n-o-s-e
b-r-o-w-n
h-a-m-m-e-r
t-e-l-e-p-h-o-n-e

Maximum Score 6
Patient's Score _____

I. Spelling

Ask the patient to spell each of the following words presented orally. Give an example, "dog, d-o-g," if the patient does not understand the task. Score 1 point for each correct answer.

up
cat
pond
house
pencil
government

Maximum Score 6
Patient's Score _____

VI. Writing

Use unlined paper, labeled with the name of the patient and the date of the examination.

A. Writing on Request

Ask the patient to write his or her name and address. Score 1 point for each recognizable word or number. Deduct $\frac{1}{2}$ point for each spelling mistake or paraphasic error.

Maximum Score 6

Patient's Score _____

B. Written Output

Present the picture (Card 1). Instruct the patient to "Write a story about what is going on in the picture." Allow about 3 minutes. Encourage the patient to write in sentences if it appears that he or she is going to list words. Score 34 points for a full description, 8 points for each complete sentence with 6 words or more, 1 point for each correct word in incomplete or short sentences. Deduct $\frac{1}{2}$ point for each spelling or paraphasic error. Score isolated words 1 point, to a maximum of 10 points. Punctuation is not scored.

Maximum Score 34

Patient's Score _____

C. Writing to Dictation

Ask the patient to write the sentence that you will dictate: "Pack my box with five dozen jugs of liquid veneer." The sentence may be broken up if the patient cannot remember it and parts repeated once. Score 10 points for the complete sentence or 1 point for each correct word. Deduct $\frac{1}{2}$ point for each spelling or paraphasic error.

Maximum Score 10

Patient's Score _____

Discontinue writing test if a score of 40 or more is reached on A, B, and C. Enter as the score for writing: $2 \times$ patient's score.

Prorated Score _____

D. Writing of Dictated or Visually Presented Words

Ask the patient to write the following words as you dictate them. If the patient does not understand, show the real object and gesture to the patient to write its name. If the patient fails (unrecognizable word or not written at all), spell the word orally, and if the patient still fails, provide cut-out letters with 2 extra letters. Subtract $\frac{1}{2}$ point for incorrect letters.

		Full Score for Either Written Response Dictated Written Response Visual Stimulus		$\frac{1}{2}$ Score for Either Oral Spelling Cut-out Letters	
gun	1				
watch	2				
nose	1				
hammer	2				
telephone	2				
screwdriver	2				

Maximum Score 10

Patient's Score _____

E. Alphabet and Numbers

Ask the patient to write the alphabet and then the numbers from 0 through 20. Score 1/2 point for each letter or number, even if it is out of order.

1. Alphabet
2. Numbers (0 through 20)

Maximum Score 12.5
Patient's Score _____

Maximum Score 10
Patient's Score _____

F. Dictated Letters and Numbers

Ask the patient to write each of the following dictated letters and numbers. Score 1/2 point each for correctly written letter and one for each complete number.

1. Dictated: D, M, J, B, F
2. Dictated: 5, 61, 32, 700, 1867

Maximum Score 2.5
Patient's Score _____

Maximum Score 5
Patient's Score _____

G. Copying of Words of a Sentence

Present card 39 with the test sentence printed on it and ask the patient to copy it. The patient may print or write. Score 1 point for each correct word, 10 points for the complete sentence. Subtract 1/2 point for each incorrect letter.

Maximum Score 10
Patient's Score _____

VII. Apraxia

Tell the patient, "I am going to ask you to do some things, try and do them as well as you can." If the patient fails to perform the command well, then show him or her how (imitate the action). If this fails, then give the patient the real object, where applicable (asterisks). Allow for variations in normal performances. Score 3 points for a good performance in the command column. Score 2 points for approximate performance or good performance on imitation only. Score 1 point for approximate performance on imitation or if performed with the actual object. If the patient uses a body part for an object, score 2 points (e.g., fingers used as a comb through the hair).

Examples

"Whistle." If the patient purses his or her lips and blows, but there is no sound, score 2 points for an approximate performance. If the patient declares that he or she can not do it or purses his or her lips but does not blow, then demonstrate. Then if the patient purses his or her lips and blows, score 1 point for approximate performance on imitation; if the patient fails to exhale then score 0 (no points).

"Sniff." If the patient grimaces or inhales through mouth, score 1 point only. If performance improves on imitation, score 2 points. If the patient does it only with a flower, score 1 point only. If the patient rubs the flower on his or her nose, score 0 (no points).

	Command	Imitated	With Object
<i>Upper Limb</i>			
1. Make a fist			
2. Salute			
3. Wave goodbye			
4. Scratch your head			
5. Snap your fingers			
<i>Facial</i>			
6. Put out your tongue			
7. Close your eyes			
8. Whistle			
*9. Sniff a flower			
*10. Blow out a match			
<i>Instrumental</i>			
*11. Use a comb			
*12. Use a toothbrush			
*13. Use a spoon to eat			
*14. Use a hammer			
*15. Use a key			
<i>Complex</i>			
16. Pretend to drive a car			
17. Pretend to knock at the door and open it			
*18. Pretend to fold a paper			
19. Pretend to light a cigarette			
20. Pretend to play the piano			

Maximum Score 60

Patient's Score _____

VIII. Constructional, Visuospatial and Calculation Tasks

A. Drawing

The subject is asked to freehandedly draw the figures listed below on a separate sheet of paper. Encourage completion by saying "Is that as complete as you can make it?" The scoring system is listed for each figure.

If the patient appears to have a comprehension problem, then he or she may be shown examples for 10 seconds.

- 1. Circle (2)
Score 2 points for closed circle
Score 1 point for curved segments

- 3. Square (2)
Score 2 points for closed square
Score 1 point for 4 lines

- 2. Cube (5)
Score 5 points for perspective and form
Subtract 1 point for each inappropriate angle
Score 1 point if all 9 lines are shown

- 4. Clock (5)
Score 5 points for correct figure
Score 4 points if numbers are partially absent or wrong
Score 3 points for all numbers and no hands
Score 2 points if most numbers are absent or out of circle
Score 1 point for circle only

- 5. Tree (3)
Score 3 points for quality
Score 2 points for symmetry
Score 1 point for asymmetry
- 7. Draw a person on a separate sheet (5)
Score 5 points for completeness and symmetry
Subtract 1 point for each body part missing
Score 1 point for an approximation

- 6. House (5)
Score 5 points for complete perspective
Subtract 1 point for lack of perspective
Subtract 1 point for missing detail
Score 2 points for an approximation

- 8. Line bisection (3)
Instruct the patient to place a mark at the middle (or center) of the line. Deduct 1/2 point for each 5 mm deviation

B. Block Design

Place four blocks before the patient. Say "You see these blocks, they are all alike. On some sides, they are all red, on some all white, and on some, half red and half white. I am going to put the blocks together to make them look like this picture. Watch me first. Now, look at the picture and make one just like it with the blocks." Demonstrate how to do the example, moving slowly, then mix up the blocks and have the patient do it, using the same blocks. If he or she fails to do it in 90 seconds, mix up the blocks and have him or her try again. If the patient fails on the second attempt, go on and show the next picture. Mix up the blocks after each design. Except for the example, the patient is not shown how to do it or is given a second attempt. Score 3 points for correct design, completed in 60 seconds; score 2 points for correct design, with extra time allowed (2 minutes). Score 1 point for blocks put together.

Practice

Score 3 points for correct design within 60 seconds

Score 2 points for correct design with extra time

Score 1 point for 4 blocks put together

Maximum Score 9

Patient's Score _____

C. Calculation

Present the card with the first calculation on it and say to the patient, "I would like you to add. What is _____?" then, "I would like you to subtract. What is _____?" etc. Continue with oral stimuli and allow the patient to look at the card at the same time (combined oral and visual stimulation). Score 2 points for each correct response. The patient may respond orally or point to the correct answer. There is no partial score given.

1. Addition	$\begin{array}{r} 5 \\ +4 \\ \hline \end{array}$	$\begin{array}{r} 9 \\ 20 \\ 1 \\ 8 \end{array}$	$\begin{array}{r} 6 \\ +2 \\ \hline \end{array}$	$\begin{array}{r} 4 \\ 12 \\ 8 \\ 3 \end{array}$	$\begin{array}{r} 4 \\ +3 \\ \hline \end{array}$	$\begin{array}{r} 6 \\ 12 \\ 7 \\ 4 \end{array}$
2. Subtraction	$\begin{array}{r} 6 \\ -2 \\ \hline \end{array}$	$\begin{array}{r} 8 \\ 4 \\ 12 \\ 3 \end{array}$	$\begin{array}{r} 9 \\ -7 \\ \hline \end{array}$	$\begin{array}{r} 16 \\ 2 \\ 5 \\ 63 \end{array}$	$\begin{array}{r} 8 \\ -3 \\ \hline \end{array}$	$\begin{array}{r} 5 \\ 3 \\ 24 \\ 11 \end{array}$
2. Multiplication	$\begin{array}{r} 4 \\ \times 2 \\ \hline \end{array}$	$\begin{array}{r} 7 \\ 2 \\ 8 \\ 6 \end{array}$	$\begin{array}{r} 5 \\ \times 3 \\ \hline \end{array}$	$\begin{array}{r} 6 \\ 2 \\ 8 \\ 15 \end{array}$	$\begin{array}{r} 6 \\ \times 7 \\ \hline \end{array}$	$\begin{array}{r} 2 \\ 11 \\ 42 \\ 25 \end{array}$
2. Division	$\begin{array}{r} 8 \\ \div 4 \\ \hline \end{array}$	$\begin{array}{r} 12 \\ 2 \\ 32 \\ 4 \end{array}$	$\begin{array}{r} 64 \\ \div 8 \\ \hline \end{array}$	$\begin{array}{r} 13 \\ 56 \\ 8 \\ 72 \end{array}$	$\begin{array}{r} 18 \\ \div 3 \\ \hline \end{array}$	$\begin{array}{r} 4 \\ 21 \\ 15 \\ 6 \end{array}$

Maximum Score 24

Patient's Score _____

D. Raven's Colored Progressive Matrices

Administer the R.C.P.M. as indicated in its manual. The maximum score is 37, 1 point for each correct item and award 1 additional point for completion in 5 minutes or less.

Maximum Score 37
