Bedside Record Form

Spontaneous Speech: Content

Directions: Ask the patient these questions and encourage complete responses. Score length and complexity of sentences, word-finding difficulty, and paraphasias.

Item	Score
1. How are you today? (1 point = any meaningful response)	(1)
2. What is your full address? (2 points = complete address; 1 point = street or city only)	(2)
3. Why are you here (in the hospital)? (2 points = complete response; 1 point = incomplete response)	(2)
4. Show the patient a magazine picture of some complexity. Say, Tell me what is happening in this picture. (5 points = complete description; 4 points = incomplete description; 3 points = essential items; 2 points = few items only; 1 point = some relevant words; 0 points = no meaningful response)	(5)

Content Score (10)

Spontaneous Speech: Fluency

Directions: Circle the point value that represents the statement that best describes the patient's speech fluency.

10 = Normal speech

9 = Some hesitations and word-finding difficulty

8 = Circumlocutory, fluent speech with semantic paraphasias and word-finding difficulty

7 = Fluent phonemic jargon, semblance to English syntax and phonology

6 = Logopenic but normal syntax; few, if any, paraphasias; significant word-finding difficulty

5 = Halting, paraphasic, but more complete sentences; significant word-finding difficulty

4 = Agrammatic, effortful; verb-noun phrases, but only one or two propositional sentences

3 = Mostly unintelligible, low-volume mumbling; some single words

2 = Single words, often paraphasias, effortful and hesitant

1 = Recurrent, stereotypic utterances with meaningful intonation

0 = No words or short, meaningless utterances

Fluency Score (10)

Auditory Verbal Comprehension: Yes/No Questions

Directions: Say, I'm going to ask you some questions. Answer yes or no. Patients may respond verbally or gesturally.

Item	Score	Item	Score
1. Is your name Smith?	1 0	6. Is the door closed?	1 0
2. Is your name Brown?	1 0	7. Will paper burn in fire?	1 0
3. Is your name _____? (Say the patient's last name.)	1 0	8. Does March come before June?	1 0
4. Are the lights on in this room?	1 0	9. Do you eat a banana before you peel it?	1 0
5. Are you a doctor?	1 0	10. Is a horse larger than a dog?	1 0

**Auditory Verbal
Comprehension Score** (10)

Sequential Commands

Materials: Coin, piece of paper, pen

Directions: Place a coin, a piece of paper, and pen in front of the patient. Say, **See the coin, the paper, and the pen? I will ask you to point to them and do things with them. Are you ready?** Read each item.

Item	Score
1. Point to the coin and the pen.	(2)
2. Point with the pen to the paper.	(2)
3. Point to the pen with the paper.	(2)
4. Put the pen on the paper and turn over the coin.	(4)

Sequential Commands Score (10)

Repetition

Directions: Ask the patient to repeat the words listed below. Say, **Repeat these words. Say _____.** Subtract 1/2 point for each phonemic paraphasia or word order error.

Item	Score
1. Bed	(1)
2. Window	(1)
3. Forty-five	(1)
4. The telephone is ringing.	(2)
5. No ifs, ands, or buts.	(2)
6. The quick brown fox jumps over the lazy dog.	(3)

Repetition Score (10)

Object Naming

Directions: Ask the patient to name objects in the room. Say, **What is this?** or **What is the name of this object?** Score 1/2 point for each correct response.

Item	Score	Item	Score
1. bed		11. hair	
2. telephone		12. (arm) chair	
3. pillow		13. watch band	
4. color of an article of clothing		14. (coat) collar	
5. elbow		15. button	
6. door		16. light	
7. magazine/calendar		17. pen	
8. shoulder		18. (drinking) straw	
9. glass/cup		19. window/picture	
10. key		20. index finger	

Object Naming Score (10)

Reading

Directions: Ask the patient to read a paragraph aloud from a magazine. Score up to 5 points for fluent, correct sentences. Deduct 1 point for each significant error or omission. Determine level of reading comprehension by asking questions. Score up to 5 additional points for reading comprehension.

Reading Score (10)

Writing

Directions: Place a piece of paper and a pen on the table and say,

Item	Score
1. Write your name.	(1)
2. Write your address.	(2)
3. Write, "The telephone is ringing."	(2)
4. Picture description: Ask the patient to write about a picture of some complexity from a magazine. Say, Write about what is happening in the picture. (5 points = complete description; 4 points = incomplete description; 3 points = essential items; 2 points = few items only; 1 point = some relevant words; 0 points = no meaningful response)	(5)

Writing Score (10)

Apraxia (Optional)

Directions: Say, I'm going to ask you to do some things. Try to do them as well as you can.

Item	Score
1. Wave goodbye.	(2)
2. Close your eyes.	(2)
3. Pretend to blow out a match.	(2)
4. Pretend to use a toothbrush.	(2)
5. Pretend to knock at a door and open it.	(2)

Apraxia Score (10)

Bedside Aphasia Score

Sum the Content, Fluency, Auditory Verbal Comprehension, Sequential Commands, Repetition, and Object Naming scores. Divide the sum by 6; then multiply by 10 to obtain the Bedside Aphasia Score.

Sum of Scores ÷ 6
× 10

Bedside Aphasia Score

Bedside Language Score

Sum the Content, Fluency, Auditory Verbal Comprehension, Sequential Commands, Repetition, Object Naming, Reading, and Writing scores. Divide the sum by 8; then multiply by 10 to obtain the Bedside Language Score.

Sum of Scores ÷ 8
× 10

Bedside Language Score

Bedside Aphasia Classification Criteria

Directions: To determine the patient's Bedside Aphasia Classification, compare the patient's Fluency, Auditory Verbal Comprehension, and Repetition scores to the three scores associated with each aphasia type.

Aphasia Type	Scores		
	Fluency	Auditory Verbal Comprehension	Repetition
Global	<5	<4	<5
Broca's	<5	>3	<8
Isolation	<5	<4	>4
Transcortical Motor	<5	>3	>7
Wernicke's	>4	<7	<8
Transcortical Sensory	>4	<7	>7
Conduction	>4	>6	<7
Anomic	>4	>6	>6
